

New Town Primary School

Sports Funding Report 2022 – 24

At New Town we have continued to bring the fitness and health of our children to the forefront of everyone's minds. We have been doing this by:

- 1. Providing our children with high quality physical education sessions using the Get Set 4 PE scheme:** We trialled this new scheme last year as we felt the quality of our teaching in physical education sessions varied between staff members. By implementing a scheme, it gave all staff a good base knowledge of the national curriculum and a full bank of lesson plans. Through using the scheme, we can ensure that no gaps at left within the curriculum and children build on what they have learnt the previous year.
- 2. By giving our children good quality lunchtime provision in the form of coaches and a variety of equipment:** Over the past few years, we have seen an improvement in the activity levels during lunch time due to the addition of sports coaches. We decided to continue to employ coaches during lunch time but have refined the sports we offer to ensure the maximum number of children can join in. We have also invested in more equipment for lunch times so that the children can use their knowledge of existing sports to create their own games.
- 3. Offering more diverse clubs at a subsidised rate:** We know from our families that attending sports clubs outside of school is not always viable and that the children lack exposure to many sports. As a result, we have continued to offer a range of after school clubs at a subsidised rate to enable as many children take part as possible.
- 4. Using cross curricular links to facilitate experience days:** This year we have held a dance and drumming workshop for all Key Stage Two pupils. This included learning African dance to live drumming and also gave the children a chance to perform for their families. We also held workshops for the whole school based on learning stories through movement for World Book Day.
- 5. Broadening horizons for our pupils:** This summer we were able to bring back our whole school Sports day at the local sports stadium. Due to Covid 19, we haven't been able to hold our sports day at the sports stadium so it was a new experience for the majority of our children. During sports day, the children had the opportunity to experience new sports such as the hammer throw, long jump, long distance running and hurdles, and use a professional full-size athletics track and equipment.

Impact and evidence

- New and long-standing staff continue to teach good quality physical education sessions. As a result, pupil progress has risen within PE and spotlight children are being targeted to bridge the gap.

- Children continue to be active during lunch time and use the equipment well to support their own games. Behaviour continues to improve during lunch and break times with an increased focus on being active and team building.
- As a result of better lunch time provision, children enter the class ready to learn and less time is spent sorting incidents which have happened at lunchtime.
- More children are taking part in after school clubs, with all clubs full each term. Commitment to these clubs has increased, with less children 'dropping out' mid way through a term.
- A wider variety of sports are being experienced by our children.
- The profile of external sports clubs and awards have been increased, with regular celebrations of sporting achievements outside of the school. More children and families are being signposted to new and existing sports clubs and activities outside of school, both to increase their activity levels and also to provide respite and a release for those children who require it. We have built good relationships with the local football group for example, run by Sport in Mind, and have facilitated a number of vulnerable children attending the group each week.

Swimming

This year we have been able to take both Year 6 and Year 5 swimming due to the addition of a new local pool. Our Year 6 pupils attended swimming lessons at Kendrick and our Year 5 pupils attended the new Palmer Park Leisure centre when it opened in 2023. Using the new categories below, we have grouped the children to show where the children were assessed at the end of the 10-week sessions. At the beginning of our swimming sessions, 80% of Year 5 pupils and 85% of Year 6 pupils had not received any swimming instruction prior this 10-week block, and a good proportion had not visited a swimming pool in their lifetime.

Purple	Red	Amber	Green
Swim with an aid using recognisable actions for 5M. Move forwards, backwards and sideways. Kick 5M on front and back Float on back for 10 seconds.	Swim unaided using recognisable actions for 5M. Swim for 5M using front paddle, back paddle, basic breast stroke and butterfly kick, with an aid. Float on back for 10 seconds	Swim confidently and consistently using recognisable actions for 10M. Swim for 5M using front paddle, back paddle, basic breast stroke and butterfly kick. (Without aid) Float on back for 10 seconds moving to standing position. Jump in from poolside and full submerge.	Swim confidently and consistently using recognisable actions for 25M. Swim for 10M using front paddle, back paddle, basic breast stroke and butterfly kick. (Without aid) Float on back for 20 seconds moving to standing position. Jump in from poolside and full submerge.
Year 5- 17 Children	Year 5- 29 Children	Year 5- 5 Children	Year 5- 6 Children
Year 6- 30 children	Year 6- 17 Children	Year 6- 3 Children	Year 6- 5 Children

Next Year

- We will continue to invest in the PE Scheme Get Set 4 PE and will offer CPD sessions for new members of staff.
- We will continue to have sports coaches running lunch time clubs to give the children more opportunities for active break times, help them learn a wider variety of games, and develop social and sports skills.
- We will be booking Palmer Park Stadium to run our sports day events again due to the huge success this year.
- We will continue to offer cross curricular active sessions in dance and movement.
- We will offer a wide range of clubs at a subsidised amount to enable more children the opportunity to join.
- We will invest in a wider range of equipment to support games and active learning during lunch and break times.
