Incy Wincy Spider

*Incy Wincy Spider climbed
up the water spout,
Down came the rain and
washed the spider out,
Out came the sunshine
and dried up all the rain,
So Incy Wincy Spider
climbed up the spout
again.*

The Lifecycle of a Butterfly

egg

caterpillar

butterfly

chrysalis

adult emerges

**change
emerge
transform**

Female butterflies lay their eggs on plants that their baby caterpillars will eat.

Butterflies taste their food with their front feet and drink nectar using their long tongue like a straw.

Butterflies flap their wings 5 times a second.
