

New Town Primary School

Sports Funding Report 2023 – 25

At New Town we have continued to bring the fitness and health of our children to the forefront of everyone's minds. We have been doing this in the following ways.

1. Giving our children quality physical education sessions using the get set 4 PE scheme

We have used a portion of the sports funding scheme over the past two years to continue to implement the Get Set 4 PE scheme. After some time trialing the scheme and gathering feedback from staff, we have decided that the scheme works well for our school, and we have begun to build on this to create our own curriculum that works for our school environment. With a large number of new teaching staff this year, we also felt that the continuity of physical education in the school was continued due to using the well-structured scheme as a basis for our PE provision.

Impact- All children receive good quality physical education sessions with well-structured lessons that follow the national curriculum. Staff are more confident with teaching PE and have the resources they need such as videos, music and equipment.

Funds Allocated- £495

2. By offering our children an opportunity to compete in a sports stadium for sports day.

We are lucky enough to be situated near to a full-size sports stadium with an athletics track and facilities that allows us to take the whole school for a fun and exciting sports day experience. During this day, the children had the chance to learn about and practice a wide range of athletics disciplines such as track running, long jump, hammer throw, discus & javelin. These sports stations were adapted for the different ages, with more complex techniques being taught and used in the higher years. We also included some traditional sports day activities for the younger members of the school. The children will learn the skills and then compete for the recognition of sportsmanship certificates at the end of the day.

Impact- Children have been given the opportunity to experience different sports and compete in a large sports environment which would not be possible in school.

Funds Allocated- £505

3. Offering more diverse clubs at a subsidised rate

We know from our families that attending sports clubs outside of school is not always viable and that the children lack exposure to many sports. As a result, we have continued to offer a range of after school clubs at a lower rate to enable as many children take part as possible. We have offered a diverse range of sports such as gymnastics, football, netball, dance, cricket, archery. In the summer term we moved to a different system of offering fully subsidised sports clubs for our most vulnerable Pupil Premium children, whilst children who are not eligible for this pay a few of no more than £3.50 a week for an hour's tuition.

Impact- Children who would not usually access these sports have the opportunity to experience them free from financial burdens. The children get to experience of a variety of sports which may encourage them to join a club outside of school.

Funds Allocated- £7880

4. Sports equipment replenishment

Over the year we have spent a proportion of the funding on replenishing the equipment we need to run a comprehensive PE curriculum, to ensure we are able to teach well planned and resourced lessons and offer the children the best we can. We have purchased high quality equipment to support this. We have installed new netball post brackets into the playground surface, meaning this is safest option available and posts can be removed when needed. We have purchased new goals for hockey and football. Finally, we have also spent some money on replenishing our playground equipment so the children can practise their skills during outside play times. We have purchased some new sheds that will store our equipment on the playgrounds so the children will be able to access a range of equipment during break and lunch times.

Impact- The children are receiving the best education with the best equipment on offer. They are given opportunities to practise the skills with equipment during break and lunch times. Children are more active during lunch and break times.

Funds Allocated- £5324

5. Lunch clubs

We have continued to employ sports coaches during our lunch sessions to enable the children to have active lunch times and to learn how to play games with each other and to practise skills they have learnt in PE sessions. The coaches teach the younger key stage one children to play different games using minimal equipment which helps the children to learn to turn take. The key stage two children play a variety of more complex sports and games which feature an element of competition, meaning they develop their strategic skills as well as demonstrating sportsmanship towards other players.

Impact- Pupils are being more active during lunch times which in turn is helping to keep behaviour issues to a minimum. They have the opportunity to apply skills learnt during their lessons to a game situation, and develop their gross motor skills in different contexts. Children experience a high level of physical activity during their breaks which is a positive use of their time. Their experience and confidence in leading and participating in games in their own time and taking part in sports for enjoyment is increasing.

Funds Allocated- £21,792

Swimming

Last year we sent our year 6 pupils to complete a 10-week programme of swimming at the new pool local to school. Using the new colour scheme, we have categorised the children to show where the children were assessed at the start and end of the 10-week sessions. At the beginning of our swimming sessions. We used the colour coding system used by the leisure centre.

This year our year 5 children went to complete their first block of 10-week swimming lessons which will be form the first half of a 20-week programme.

Year 6 End Point

Purple	Red	Amber	Green
Swim with an aid using recognisable actions for 5M. Move forwards, backwards and sideways. Kick 5M on front and back Float on back for 10 seconds.	Swim unaided using recognisable actions for 5M. Swim for 5M using front paddle, back paddle, basic breast stroke and butterfly kick. (With an aid) Float on back for 10 seconds	Swim confidently and consistently using recognisable actions for 10M. Swim for 5M using front paddle, back paddle, basic breast stroke and butterfly kick. (Without aid) Float on back for 10 seconds moving to standing position. Jump in from poolside and full submerge.	Swim confidently and consistently using recognisable actions for 25M. Swim for 10M using front paddle, back paddle, basic breast stroke and butterfly kick. (Without aid) Float on back for 20 seconds moving to standing position. Jump in from poolside and full submerge.
Year 6- 17 Children	Year 6- 29 Children	Year 6- 5 Children	Year 6- 6 Children

Number of children who could swim 25 metres at the end of the swimming programme- 6 children

Year 5 Starting point

Purple	Red	Amber	Green	Blue or Beyond
Swim with an aid using recognisable actions for 5M. Move forwards, backwards and sideways. Kick 5M on front and back Float on back for 10 seconds.	Swim unaided using recognisable actions for 5M. Swim for 5M using front paddle, back paddle, basic breast stroke and butterfly kick. (With an aid) Float on back for 10 seconds	Swim confidently and consistently using recognisable actions for 10M. Swim for 5M using front paddle, back paddle, basic breast stroke and butterfly kick. (Without aid) Float on back for 10 seconds moving to standing position. Jump in from poolside and full submerge.	Swim confidently and consistently using recognisable actions for 25M. Swim for 10M using front paddle, back paddle, basic breast stroke and butterfly kick. (Without aid) Float on back for 20 seconds moving to standing position. Jump in from poolside and full submerge.	Swim confidently and consistently using recognisable actions for 50M. Swim for 25M using front paddle, back paddle, basic breast stroke and butterfly kick. (Without aid) Swim in the help position. Jump in from poolside and full submerge.

Year 5 After completing initial 10 weeks

Purple	Red	Amber	Green	Blue or Beyond
Year 5- 6 Children	Year 5- 18 Children	Year 5- 14 Children	Year 5- 11 Children	Year 5- 8 Children

Number of children who could swim 25 metres at the end of the 10 weeks- 17 children

Next Year

- We will continue to invest in the PE Scheme Get Set 4 PE and will offer CPD sessions for new members of staff. This year the teachers will be working to a new curriculum map to ensure the children are fully immersed in game play in the various sports rather than just skills.
- Lunch clubs will continue to run but will be more focussed on the sports and skills the children have learnt during school. They will have a different focus per phase.
- As we continue to see a huge success with our whole school sports day running at Palmer Park Stadium we will continue to hold it there.
- We will offer each phase an opportunity to do some cross curricular learning in dance and movement and also bring in specialists' coaches for experience days in a variety of sports.
- We will continue to expand the wide range of clubs we offer and continue to subsidise the amount to enable more children the opportunity to join.
- We will send our less confident swimmers from this Year 5 cohort to have extra swimming sessions to help them achieve the required standard in swimming.

Sports Provision and Funding 2023/24

U- Sports- lunchtime provision	£21,792
Equipment	£5324
After School Clubs	£7880
Get Set 4 PE subscription	£495
Track Hire	£504
Total spend	£35,996
Total Sports funding 2022-23	£19,350
Total Funds from Parental incomes Sports clubs	£3342
Total Funds from Fundraising events	£2304
Total Surplus / Deficit Primary Sports Funding 2023/24	£-11,000

Sports Provision and Funding: Projected Spend 2024/25

Projected U- Sports- lunchtime provision	£10,900
Clubs: subsidy (approximation)	£7500
