

Cross-curricular Challenges

These can be completed individually or as a group within families:

- Research your favourite movie star/animal/sport/hobby/historical figure and prepare a report. Make sure you include pictures and facts. This could be written or drawn on paper, presented as a poster or fact file, presented to someone in your family or videoed.
- Cook a meal with an adult. Write out the recipe and the instructions...take a photo and write a review. Gather together 6 family recipes and make a book.
- Measuring - draw a plan of your house. Can you measure it? Use your foot steps to pace it out or if you have one, use a tape measure. If you had unlimited money, time and space, how would you extend your house? What would you add to the plan - a slide instead of stairs, a cinema, a water park – be as creative as you can!
- Design an outfit for a sports team at the Olympics.
- Choreograph a dance to a piece of your favourite music.
- Research your family tree and family history. Where were each of your family members born? Have you got maps? Pictures? What languages did they speak? Do you have any objects from the areas/countries they were from?
- Do an observational drawing from your window.
- If you had to go on an adventure...pick a destination and decide what you would put in your rucksack. Do you need shelter? Do you need food? What could you pack to keep you entertained?
- How many things can you fit in a box? Choose a small box and see what you can fit inside - make it no bigger than the size of your hand!

- Keep a diary - what have you been up to during your time off school?
